

Amendments to the Specification:

Please replace the paragraph beginning at page 5, line 16, with the following redlined paragraph:

Just as for actuation of the second side element 18, a respective suitable rotary mechanism drive 13 can also be provided for actuation of the ball rotary joint 12. It will be appreciated that, in the case of the ball rotary joint 12, that can be a drive motor while for example electrical, hydraulic or pneumatic devices can be used for actuation of the second side element 18.
